

# OPS MEDIA

**Absorption Media used in the  
Removal of Hydrocarbons and  
Heavy Metals from Water**

## RM25

Clay based media coated in surfactant.  
Removes hydrocarbons from water  
including PCB's, PAH's, PCP's and  
BTEX.

## RM40

Removes heavy metals to Non Detect  
levels such as Pb, Ni, Cu, Zn, Cd  
and Cr III.

## RM40C

Removes Cr VI, As V, Mo, Fe-CN and complexes  
of heavy metals.

## RM63

Neutral pH oxidation catalyst for treating hydrocarbons  
– used in soil treatment, mercapton and sulfide treatment.
